Preliminary

The International Moth Class Association (IMCA) is seeking expressions of interest for the 2017 World Championships. There are a number of requirements and conditions set out by IMCA for holding such an event and IMCA is seeking detailed information on which to base a decision.

This document has been compiled to seek expressions of interest from IMCA Member National Authorities (MNA) that believe they are in position to host the IMCA 2017 World Championship Event. This is to consider the highest quality racing, the best conditions for developing individual friendship among competitors and goodwill amongst all participating people. The International Moth is currently experiencing strong growth and worldwide interest and this is expected to continue into the 2017 World Championship event.

An interested MNA is encouraged to consider and address the requirements outlined in the following pages. A response will be required by June 30, 2014 to be eligible to host The Event. A final decision will be made at the 2014 IMCA AGM.

General

Venue

The proposed Venue to hold The Event will need to be suited to host such an event of this size and stature.

The water and wind conditions will need to suit sailing a Moth at the proposed time of the year.

Travel and accommodation

There is a requirement for relatively easy access to The Event location by International competitors and their equipment.

With such an influx of competitors, families and other parties, a range of accommodation options will be required.

Cheap accommodation, close to the venue, including camping must be available.

Exclusivity

The Event must be reserved exclusively for the IMCA for the duration of The Event program. There will be some competitors arriving earlier to train and practice so access to the proposed venue waters and facilities may be required.

Experience

It is expected that there is an experienced team in place to hold The Event.

MNA National Championship

It is highly desirable to run The Country National Championship just prior to The Event. Open to all competitors, this gives the competitors and race management a chance to practice prior to the actual event. This has been done a number of times in prior World Championship events for IMCA and has been held over the 2 days prior.

Dates of The Event

The Event should be held between May and October of 2017 however, any date in 2017 can be considered.

Recommended Program

Day 1 Measuring and Registration

Day 2 Measuring and Registration + Nationals

Day 3 Measuring and Registration + Nationals

Day 4 Measurement + practice race + opening ceremony

Day 5 Qualifying Races 1, 2, 3

Day 6 Qualifying Races 4, 5, 6

Day 7 Finals Races 1, 2, 3

Day 8 Reserve Day

Day 9 Finals Races 4, 5, 6

Day 10 Finals Races 7, 8, 9

Day 11 Finals Races 10, 11, 12 + closing ceremony

No more than 4 races shall be held on any one day.

5 races are required to be completed to constitute a series.

Funding and Sponsorship

It is the responsibility of the host club, the organising committee and the host Moth Class National Association to cover all funding for the event.

Competitor advertising is unlimited with the exception of the forward 25% of the hull and boom, which is reserved for event advertising and bow numbers if required.

Entry fees from participating boats will support the event but these entry fees should not exceed 350 EUR for each boat (a portion of this is the IMCA fee, currently set at 10 EUR for each boat).

Sponsorship is the responsibility of the MNA organising committee and shall be used for the benefit of competitors to reduce the entry fee and improve the overall quality of the event.

It is encouraged for the interested MNA to provide a forecasted Profit and Loss, including proposed entry fee, event expenditure and sponsorship.

Race Management Requirements

In general, there is a requirement for equipment and people to provide quickly and well-laid, clearly marked courses and clear signals from Committee boat

Race Committee

An ISAF recognized International Race Officer is required to conduct the racing.

Race Consultant

The International Moth Class Association shall designate a race consultant.

Jury

The jury members need to be designated in accordance with the ISAF rules and regulations. The jury shall be an International Jury approved by the host country's national authority.

Measurement:

IMCA shall appoint, in accordance with the ISAF regulations, the chief measurer of the event. The chief measurer shall carry out his/her duties in accordance with the ISAF rules & regulations, the Moth Class Rules and any IMCA rule interpretations in force at the time.

Format of the Event:

When the fleet comprises less than 80 competitors, the event shall be competed in one fleet.

When the fleet comprises more than 80 competitors, the event shall be competed in multiple fleets, including qualification and final series.

Of note, it is forecast (based on previous world championships) there could be as many as 130+ competitors.

The final choice of event format must be decided in conjunction with IMCA.

Courses and Duration:

The format of the course will be a windward leeward type course

according to the current version of the Standard Sailing Instructions issued by IMCA (to be provided).

Concurrent races for separate fleets may be conducted on inner and outer windward leeward courses.

The duration of each race should be approximately 35 minutes for the leading boat.

Rescue Function

Sufficient, experienced safety cover is required.

A safety officer is responsible for the safety of all the competitors during races and between the course and the shore.

It is suggested by IMCA that the number of safety boats will be at least 1 for 10 competing boats, Those boats should be inflatable boats, have two experienced persons onboard and the appropriate equipment.

Medical assistance within reasonable distance from the racing area shall be available all times during the event.

An appropriate system shall be set up in order to check in and check out, each day, the boats competing on the course.

Jury Boat

One suitable boat shall be available for the Jury Members in order for them to act as required on the racecourse.

On Shore Requirements

On Shore Events

For each championship, the minimum events to be organised are:

- An opening ceremony
- At least 2 catered social events, should be included in the entry fee, one of which will be the Prize Giving.
- A social/sightseeing event in the neighboring area on the rest day
- A closing and prize giving ceremony

- The International Moth Class Association Annual General Meeting

The social events should be available at reasonable cost to supporters and free of charge to competitors.

Onshore Facilities

On shore facilities to include:

- Secure and sufficient dinghy park area including tie down facilities for the boats
- Secure car parking close-by with trailers and container areas
- Adequate and safe launch and recovery ramps accessible whatever the height of the tide and weather conditions
- All weather social gathering area with food/drink facilities for post race socializing between competitors, officials & supporters
- Fresh water tap in the dinghy park
- Toilets in sufficient number for the event
- Suitable food for all competitors and supporters
- Complimentary pasta or similar for competitors post racing

The host club must provide for spectators and supporters needs.

Communications

Spectators, where possible, should be given the opportunity to get on the water. Good information about the progress of the racing and the competitors should also be available onshore.

Suitable Internet connectivity should be openly accessible by competitors and the media. This connectivity should support over 200 users with reasonable performance.

Results and press releases shall be given to the Moth class website in a timely manner to enable worldwide distribution.

Local press contacts will need to supplement the Moth class mailing list. Timely provision of material, including press releases and photographs free for editorial use are required for distribution.

A web master will be required to manage content on the mothworlds.org event web site, in addition to maintenance of social media properties on Facebook, Twitter and Instagram.

Costs related to the accommodation and transportation of an official class photographer shall be covered by the event budget.

Details of proposed web master, videographer, press and photography personnel shall be provided.

Race Management Facilities

Adequate space for Registration of Competitors.

A facility for boat measurement and sail checking capable of checking all boats & sails within the time frame allotted in the event schedule.

Race Committee and Jury Facilities

Adequate space/rooms for the race committee is required to be supplied. Also, a room for protests to be held will be required.

International Moth Class AGM

During a World Championship, the International Moth Class annual General Meeting (AGM) will be held.

Appendix 1 – Notes for Reference

Official Race Documents

All the official documents such as notices of race, sailing instructions, measurement check forms etc. must be approved by the International Moth Class Association and shall be in accordance to the standard documents established by the IMCA.

Application of Rules:

The current ISAF Racing Rules of Sailing, the ISAF codes and regulations, the current Moth Class Rules, the prescriptions of the host country authority and the championship guidelines shall govern each event.

Disclaim Procedures

The IMCA MNA is responsible for the correct application of all the laws and rules applied in the hosting country, regarding the organisation of sport and/or sailing events.

The International Moth Class Association shall not be responsible of any infringement regarding the laws and rules applied in the hosting country regarding sport and/or sailing events.

Eligibility for competitors

The World Championship shall be open to boats/crews who are current members of a national class association in good financial standing with IMCA.

Response Form

Guidelines

The questions (based on the requirements) below are required to be responded to by the interested MNA representation wherever possible. The questions have been structured to give the interested MNA the ability to put as much or as little into each response as desired.

Any MNA interested in responding to this request are encouraged to register with The Secretary of IMCA in the initial instance.

If there are any questions or queries, please email them to The Secretary of IMCA. Any responses from IMCA will be made available to all registered interested sailing clubs.

The final submission is required by June 30, 2014 and need to be emailed to The Secretary of IMCA who will acknowledge receipt when received.

Contact

Rayshele Martin (Secretary of IMCA): secretary@moth-sailing.org

Scott Babbage (President of IMCA): president@moth-sailing.org

Response Questions

1. Can you provide particulars of the club and surrounds, including some photos and maps, which demonstrate how The Event could be hosted successfully?
2. Can verifiable information be provided about expected sea, wind, weather and tidal information for the proposed host venue?
3. What Travel and Accommodation information can you provide?
4. What are the Container and boat trailer transport options? Boats will be both sea, air freighted and trailed in.
5. Can you confirm exclusivity for The Event at the proposed venue for the duration of the program?
6. Is their access to the proposed venue prior to The Event and if so, how many days prior?
7. Has an event like this been run at the proposed venue?
8. Is there a proposed organising committee with experience in running a world championship?
9. What are the suggested dates for running The Event?
10. Can you confirm the Recommended Program?
11. Can you provide details on how you would see the financials working for The Event at the proposed venue?
12. Is there any proposed sponsorship to consider?

13. Will the race committee be ISAF compliant?
14. Can the format be confirmed as being understood and the proposed venue can cater for such a format?
15. Can the course layout be confirmed as being understood and the proposed venue can cater for such a course layout?
16. Can you describe what the proposed safety and rescue function would be?
17. Will there be a Jury Boat available?
18. Will there be sufficient media facilities available, including both on and off water facilities?
19. Can you describe how the social events would be hosted?
20. Can you confirm the facilities are available as required?
21. Can you describe the communications infrastructure that will be available?
22. Can you confirm that there will be an adequate registration area, measurement area, race committee and jury facilities, and AGM area?
23. Are there any other features or considerations you want to put forward with your proposal?

Glossary
